RECOMMENDED MALTING BARLEY VARIETIES

THE CANADIAN MALTING BARLEY TECHNICAL CENTRE (CMBTC) RECOMMENDED LIST provides producers with an indication of which malting barley varieties have the greatest potential for selection and marketing. Each variety on the recommended list has been pilot scale tested at the CMBTC and all exhibit good malting and brewing characteristics. All varieties on the list are registered with the Canadian Food Inspection Agency (CFIA).¹

THE CMBTC AND ITS MEMBERS RECOMMEND

Talk with your grain company representative, local elevator operators, malting companies, or the representative seed company about opportunities to grow and market malting barley.

Use certified seed to ensure varietal purity, reduce incidence of disease and increase the likelihood of selection for malt.

Explore opportunities to contract production of malting barley varieties in your area.

¹ The varieties on this recommended list are targeted primarily at western Canada, and therefore may not reflect registered malting barley varieties with the greatest potential for selection and marketing in eastern Canada.
